

The logo for BLOC, featuring the letters 'B', 'L', 'O', and 'C' in a stylized, white, blocky font on a red background.

SHOWER SCREENS

A black-framed, semi-frameless pivoting shower screen is installed in a modern bathroom. The screen is made of clear glass and is set against a wall of white subway tiles. To the left, a white vessel sink sits on a wooden vanity with a black countertop. A black showerhead is mounted on the wall above the screen. The floor is a light-colored, polished material.

BLOC - Square Cut Semi-Frameless
Pivoting Shower Screen

The logo for DLC GROUP, featuring a stylized graphic of three grey diagonal stripes to the left of the text "DLC GROUP" in a bold, sans-serif font.

Indulge yourself with the BLOC semi-frameless shower screen system to create a premium bathroom at an extremely affordable price. The BLOC system has many high end quality features including a magnetic door latch mechanism that has no moving parts, resulting in whisper quiet operation. The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance. Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bath room area. The BLOC's adjustment capabilities provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings. The square cut corner stakes are designed to match the perimeter frame profile, providing rigid colour coordinated joining points in the shower screen frame structure.
